

# Accessing the Student Profile/ Digital Backpack

Student Profiles (AKA “Digital Backpack”) include all data that is available in ISEE about each student. Currently ISAT, IRI, and IELA data is loaded into ISEE. Individual student data is highly sensitive and may be regulated by local, state and federal laws. Always exercise extreme caution in viewing, analyzing and acting on this information.

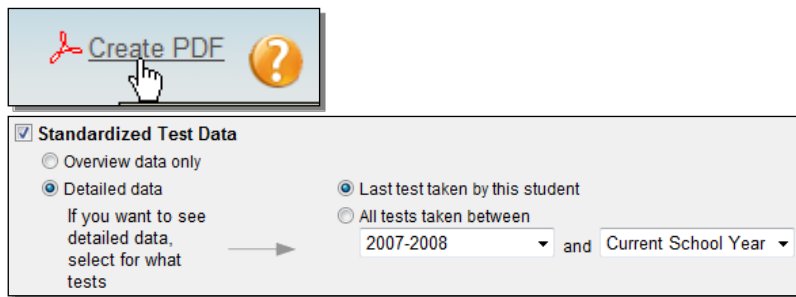

## Accessing a Student Profile

Type a name in the ‘type-ahead’ Search box and select the desired name from the drop-down. Note that access to student profiles is given to users with District or School access. Viewing detailed student data is not enabled for users at the State level. You can also access the profile by clicking a student name from any report in which it is displayed.

## Printing a Profile

Click the **Create PDF** link (located in the upper right of the profile). Check the sections to print and click **Create PDF**.

## Tabs in the Student Profile

Tab	Displays...
<b>STUDENT OVERVIEW</b>	Personal information, current year marks and benchmark results that highlight strong and weak standards.
<b>ENROLLMENT &amp; ACADEMIC RECORD</b>	Current and historical enrollment.
<b>GROWTH REPORTS</b>	Comparison in the student’s score from most recent to prior year and measures changes in an individual student’s SPRI Scores (Student Proficiency Ranking Index) over time. Non-proficient students have SPRIs that are less than zero. The closer the SPRI is to zero, the closer that student is to proficiency.
<b>STANDARDIZED TESTS</b>	Performance on all standardized tests that have been loaded into the system. Arranged by school year.  <b>Detailed Performance Tables</b> links to the full test information, including sub-section results if available.  <b>Score Group Distribution Chart</b> indicates the score group of everyone who

	took this test at the same time and same school as the student.
PROGRAMS	Indicates program enrollment including LEP status and bus ridership.
